Thanks. Will share with EOC PIO and EU.

And will give IC a heads up before anything gets posted.

Likely not until Monday unless there is more urgency.

EL

Hi Harry,

Attached is the email with the final SAP/QAPP that we set to EPA on Tuesday 9/1. I don't believe we received any additional comments, so it is final from our standpoint. Let me know if you need anything else.

-Joe

Hi there –

Do you guys have this final GKM sampling plan for us? I've seen a draft

Would either of you guys know whether the sampling plan we are using for the SJR sampling (water and sediment) is a final? (I am assuming the answer is yes) The question was raised this morning by the Durango IC. I thought it was a bit strange at this point.
